Practice

DevOps

©Easy Agile

Practice

Do a regular planning of work

"Plans are nothing; planning is everything."
- Dwight D. Eisenhower

Scrum

©Easy Agile

Practice

Do a regular retrospect

"If you don't feel stupid about things you did last week, you're probably not learning fast enough." - Jurgen Appelo

Scrum

©Easy Agile

Practice

Do a regular review (demo)

"Do or do not, there is no try." - Yoda

Scrum

©Easy Agile

Practice

Do a user story mapping

©Easy Agile

Practice

Do nothing

"The sweetness of doing nothing." - Elizabeth Gilbert

©Easy Agile

Practice

Do test-driven development

"Always code as if the guy who ends up maintaining your code will be a violent psychopath who knows where you live." - John Woods

XP

©Easy Agile

Practice

Enhance team responsibility

©Easy Agile

Practice

Find a successful example and make sure everyone knows about it

©Easy Agile

Practice

Find relevant literature and leave it around the office

©Easy Agile

Practice

Focus communication on richer forms

"Either write something worth reading or do something worth writing." - Benjamin Franklin

©Easy Agile

Practice

Hire a coach

©Easy Agile

Practice

Hire external expertise

©Easy Agile

Practice

Implement the 1:3 3:1 rule across the team

Lean

©Easy Agile

Practice

Introduce product owner

Scrum

©Easy Agile

Practice

Introduce scrum master

"A good scrum master can handle two teams, a great can handle one." - Unknown

Scrum

©Easy Agile

Practice

Locate waste in the development cycle and address it

Lean

©Easy Agile

Practice

Make a product backlog

Scrum, XP

©Easy Agile

Practice

make an inventory of your applications

©Easy Agile

Practice

Make self-organising teams

©Easy Agile

Practice

Measure the test coverage and make it visible

©Easy Agile

Practice

Measure what your team delivers

Lean

©Easy Agile

Practice

Measure your users behavior

"In God we trust; all others must bring data"

©Easy Agile

Practice

Monitor and manage development flow

Lean

©Easy Agile

Practice

Monitor your systems for bugs and strange things

XP, DevOps

©Easy Agile

Practice

Organize yourself as feature teams

©Easy Agile

Practice

Pivot your business

Lean Startup

Practice

Practice what you preach

"The reality is that the only way change comes is when you lead by example" - Anne Wojcicki

©Easy Agile

Practice

Refactor your code

XP

©Easy Agile

Practice

Remove dependencies on others in the organisation

©Easy Agile

Practice

Sack a manager

©Easy Agile

Practice

Sack the team

©Easy Agile

Practice

Scope the product down

©Easy Agile

Practice

Ship the product now

"A lot of times, people don't know what they want until you show it to them." - Steve Jobs

©Easy Agile

Practice

Split user stories

©Easy Agile

Practice

Start every day with a standup

Scrum

Practice

Start using a release train

©Easy Agile

Practice

Start using continuous integration

XP, DevOps

©Easy Agile

Practice

Start with automated testing

©Easy Agile

Practice

Start with daily releasing your product

©Easy Agile

Practice

Start with pair programming

©Easy Agile

Practice

Start with portfolio management

©Easy Agile

Practice

Start with scrum-of-scrums

©Easy Agile

Practice

Stop the project

Practice

Stop using a tool

Practice

Talk to the customer

"In a startup, no business plan survives first contact with customers." - Steve Blank

©Easy Agile

©Easy Agile

©Easy Agile

Practice

Use a new tool

Practice

Use a Proxy for the product owner

Practice

Visualize your workprocess

©Easy Agile

©Easy Agile

Kanban

©Easy Agile

Practice

Work in iterations of one month

Practice

Work in iterations of two weeks

Practice

Work in weekly iterations

"If it's hard to do, do it more often" - Unknown
